

KWANGCHEON DASOL KIM

KWANGCHEON DASOL KIM

Process of Manufacture

"KwangCheon DasolKIM is trying our best to satisfy our customers."
 KwangCheon DasolKIM is located in GwangCheon(=KwangCheon), the region famous for Seaweed. And, all of our employees are trying our best to produce a quality product with great taste and nutrition through continuous research and development of new technologies.
 We promise to be a dedicated company to provide its customers with best products and always taking their health and nutrition as its priority.

Our Advantage

1. Incarnating very traditional and renowned GwangCheon seaweed GwangCheon seaweed only uses seaweed that originated from west coast(SeoCheon) where it uses most luxurious pillar-type method to grow seaweed during winter season. 99% of seaweed's flavor comes from its origin.
2. On behalf of customer's health, we decreased sodium content and added quality sesame oil and corn oil to create crispy and nutty fragrance and flavor.
3. GwangCheon seaweed is the best seasoned seaweed which is managed and produced under clean and hygienic environment with our newly constructed factory and most recent automated system under HACCP regulation

Our Quality

Seaweed is a nutritious food rich in vitamins(A, B1 • B2 • B6 • B12, C) and proteins. Seaweed also has a crucial ingredient which extracts cholesterol from body to prevent arteriosclerosis, cancer and high blood pressure. (source : Encyclopedia of Korean Culture)
